Image 2 (Pexels):

Summary:

Anthropic, a prominent artificial intelligence company, is planning a significant IPO to raise up to $64.4 billion. The company, founded by former OpenAI executives, aims to attract global investors, including those from India. Indian investors can participate in the offering through overseas brokerage accounts after the listing occurs. While demand for the shares appears strong, most retail investors may miss the IPO allocation.

Detailed analysis:

The piece illustrates cross-border capital market access, a key point for GS-III (Capital Markets) and for UPSC's international finance section. Understanding eligibility rules helps answer scenario-based questions on overseas investments.
