— NATIONAL —

Milk Shock! Amul Hikes Prices, Wallets Squeezed Overnight!

Image 1 (Real):

Original Image

Image 2 (Pexels):

Summary:

Amul Milk Price Hike: In a statement, the company said prices of its fresh milk variants will rise by Rs 2 to Rs 4 per litre, depending on the type. The prices will be effective from November 12.

Detailed analysis:

The hike reflects rising input costs and signals a potential rise in the Consumer Price Index for dairy. Aspirants should note its impact on inflation trends, fiscal policy debates and possible government price-control measures ahead of elections.

Rain Refuses Delhi! Smog Stays, Citizens Gasp for Air!

Image 1 (Real):

Original Image

Image 2 (Pexels):

Summary:

All are hoping for rain that may wash away the toxic cloud hanging overhead. But the weather office ended that hope today, saying rain is unlikely in the plains. There might be some over the Himalayan region, but none is expected in Delhi, where the pollution has reached severe levels.

Detailed analysis:

Persistent high PM2.5 levels despite festive season underline the need for stricter emission controls. For exams, understand the health-policy link, the role of the Central Pollution Control Board, and its relevance to sustainable development goals.

Source: https://www.ndtv.com/india-news/no-rain-no-relief-weather-chief-dashes-pollution-hit-delhis-hopes-12314523#publisher=newsstand

Drug Shock! Cop Caught with Heroin – Police Force in Turmoil!

Image 1 (Real):

Original Image

Image 2 (Pexels):

Summary:

As Punjab Police continues to wage its much-publicised 'Yudh Nashian Virudh' campaign, a case involving a police personnel allegedly linked to narcotics has raised uncomfortable questions about the force's own credibility in the fight against drugs.

Detailed analysis:

The incident highlights challenges in internal accountability and could affect public confidence in law-enforcement reforms. Aspirants should relate it to the Narcotic Drugs and Psychotropic Substances Act and recent police-reform discussions.

Source: https://www.ndtv.com/india-news/punjab-cop-faces-probe-after-viral-video-shows-heroin-found-in-his-pocket-12314486#publisher=newsstand

Visa Revolution! Application Forms Shrink, Travel Rushes In!

Image 1 (Real):

Original Image

Image 2 (Pexels):

Summary:

The Indian government on Wednesday announced a major overhaul of its visa framework to make it easier for foreign nationals to visit the country, reducing the number of major visa categories from 13 to 9 and sub-categories from 49 to 23. The government has also cut the number of fields in visa application forms by 65-70 per cent to simplify the process and reduce paperwork.

Detailed analysis:

Simplified visas aim to boost tourism, business travel and foreign investment—key indicators for GDP growth. For competitive exams, note its relevance to foreign policy, tourism sector forecasts, and the Ministry of External Affairs' digital initiatives.

Source: https://www.indiatvnews.com/news/india/india-simplifies-visa-rules-forms-become-70-shorter-categories-reduced-from-13-to-9-2026-11-11-1059207

Voter Vanish! Millions Missing, Election Chaos Looms!

Image 1 (Real):

Original Image

Image 2 (Pexels):

Summary:

With more than 3.38 crore voters found missing from Uttar Pradesh's Assembly electoral rolls despite their names being registered in the state's panchayat and urban local body voter lists, the Election Commission has announced a statewide verification drive to rectify the anomalies.

Detailed analysis:

Such a massive discrepancy raises concerns about electoral roll accuracy, potential disenfranchisement, and the integrity of upcoming state elections. Candidates should study the EC's verification mechanisms and related legal provisions under the Representation of People Act.

Source: https://www.indiatvnews.com/uttar-pradesh/over-3-38-crore-voters-missing-from-up-electoral-rolls-ec-to-hold-statewide-verification-drive-2026-11-11-1059210

Diwali Miracle? Sky Clears While Smog Hits New High!

Image 1 (Real):

Original Image

Image 2 (Pexels):

Summary:

According to a Centre for Science and Environment (CSE) report, the average PM2.5 concentration during the week before Diwali stood at 236 micrograms per cubic metre, almost double the 120 µg/m³ recorded in 2025. It was also the highest pre-Diwali average in three years, yet the city looked less hazy due to festive lighting and public perception.

Detailed analysis:

The contrast between visual perception and scientific data stresses the importance of reliable monitoring. For exams, focus on air-quality indices, the role of CSE, and policy measures like the Graded Response Action Plan (GRAP) that may be invoked during festival periods.

Source: https://www.ndtv.com/india-news/why-delhi-looked-less-hazy-this-diwali-despite-worse-air-quality-12314316#publisher=newsstand

— WORLD —

Prisoner Swap Shock: War Rivals Seal Historic Deal in Desert Truce!

Image 1 (Real):

Original Image

Image 2 (Pexels):

Summary:

The two sides have exchanged thousands of captured soldiers throughout the almost five-year war, started by Russia’s 2022 invasion

Detailed analysis:

This development signals a potential thaw in Russia-Ukraine hostilities and highlights the role of third-party mediation. For UPSC aspirants, note the diplomatic channels (U.S., UAE) and implications for cease-fire negotiations, humanitarian law, and regional security dynamics.

Source: https://www.thehindu.com/news/international/russia-ukraine-agree-to-prisoner-swap-at-us-brokered-talks/article71689267.ece

Ebola Catastrophe: Congo Hits Record Death Toll, Global Health Alarm!

Image 1 (Real):

Original Image

Image 2 (Pexels):

Summary:

The 17th outbreak of the virus in the DRC's history was officially declared in May, but experts believe it emerged weeks or even months earlier

Detailed analysis:

The scale of the outbreak underscores weaknesses in health infrastructure and the interplay of conflict with disease control. Important for IAS exams: public health policy, WHO response mechanisms, and the impact of armed conflict on epidemic containment.

Source: https://www.thehindu.com/news/international/dr-congo-ebola-outbreak-exceeds-11000-cases-causes-5387-deaths/article71691022.ece

Climate vs Conflict: World Leaders Battle to Keep Earth on Track!

Image 1 (Real):

Original Image

Image 2 (Pexels):

Summary:

Negotiators from nearly 200 countries are seeking agreement at COP31 on a proposal from Turkey to increase the share of electricity in global energy use and revive stalled efforts to move away from fossil fuels

Detailed analysis:

Exam takers should track the linkage between geopolitical tensions and climate diplomacy. Highlight the Turkey proposal, the push for renewable electricity, and the challenge of aligning diverse national interests at multilateral forums like the UNFCCC.

Source: https://www.thehindu.com/news/international/war-conflict-must-not-distract-from-climate-action-leaders-warn-cop31/article71690853.ece

Iran’s Nuclear Lockdown: No Exit for Enriched Uranium!

Image 1 (Real):

Original Image

Image 2 (Pexels):

Summary:

Rezaei has said there are currently no negotiations taking place between Tehran and Washington

Detailed analysis:

Critical for GS papers on security and nuclear non-proliferation. The statement reflects Iran’s hardline stance post-JCPOA, affecting regional balance, sanctions policy, and India’s strategic calculus in the Middle East.

Source: https://www.thehindu.com/news/international/iran-will-not-allow-enriched-nuclear-material-to-leave-the-country/article71690943.ece

Germany Dumps Chinese Drones: Security Scare Triggers Euro-Tech Revival!

Image 1 (Real):

Original Image

Image 2 (Pexels):

Summary:

Drones from Chinese manufacturers had previously been permitted as a cost-effective option for target practice and training purposes; they will now be replaced with European products

Detailed analysis:

Shows growing mistrust of Chinese defence tech in Europe, relevant for India's own 'Make in India' defence push. Examine implications for Indo-European defence cooperation and supply-chain security.

Source: https://www.thehindu.com/news/international/german-military-to-stop-using-chinese-made-drones-citing-security-concerns/article71691040.ece

Deadly Ambush: Militants Slay Ten Police in Pakistan’s Turbulent Northwest!

Image 1 (Real):

Original Image

Image 2 (Pexels):

Summary:

Police say militants have ambushed vehicles carrying police officers in northwestern Pakistan, triggering a gunbattle that killed at least 10 officers

Detailed analysis:

Highlights the persistent insurgency in Khyber Pakhtunkhwa, a security challenge for South Asia. For UPSC, note the impact on Indo-Pak relations, counter-insurgency strategies, and regional stability.

Source: https://www.thehindu.com/news/international/militants-ambush-police-vehicles-in-northwestern-pakistan-killing-at-least-10-officers/article71691044.ece

— BUSINESS —

India’s tax vault swells by ₹14.42 trillion – corporate taxes surge 18%!

Image 1 (Real):

Original Image

Image 2 (Pexels):

Summary:

India’s net direct tax collections grew 11.76% to ₹14.42 trillion by 10 Nov FY27, driven by a 17.8% jump in corporate tax receipts.

Detailed analysis:

A sharp rise in corporate tax indicates stronger profitability of listed firms and higher GST/IT returns, signalling a favourable environment for business-related exam questions on fiscal health and government revenue trends.

Source: https://www.livemint.com/news/net-direct-tax-collections-rise-11-8-to-rs-14-42-trillion-corporate-tax-leads-11794414077304.html

Yes Bank hauled into court over ₹8,415 cr AT-1 bond scandal!

Image 1 (Real):

Original Image

Image 2 (Pexels):

Summary:

Axis Trustee's petition seeks enforcement of a judgment to restore ₹8,415 crore worth of AT-1 bonds issued by Yes Bank.

Detailed analysis:

The case highlights risks in hybrid capital instruments and regulatory oversight, a key topic for banking and finance sections of competitive exams.

Source: https://www.livemint.com/news/axis-trustee-files-contempt-plea-against-yes-bank-over-at-1-bonds-11794414358426.html

Fertiliser frenzy! Govt pumps ₹62,370 cr into rabi subsidy – 64% hike!

Image 1 (Real):

Original Image

Image 2 (Pexels):

Summary:

The Centre approved a 64% increase in rabi fertilizer subsidy, allocating ₹62,370 crore, alongside ₹15,000 crore credit guarantee for micro-enterprises.

Detailed analysis:

Higher agro-subsidies boost farm income and rural consumption, influencing macro-economic indicators that appear in UPSC and state-level exams.

Source: https://www.livemint.com/news/india/union-cabinet-raises-rabi-fertilizer-subsidy-by-64-to-62-370-crore-11794397334259.html

Mega-budget blast: ₹12.6 lakh-crore Mudra cash, huge subsidies & metro expansion unveiled!

Image 1 (Real):

Original Image

Image 2 (Pexels):

Summary:

The Union Cabinet approved extensive measures: extended Mudra loans, Rabi fertilizer subsidy, Noida Metro extension, and credit guarantees for micro-units up to March 2031.

Detailed analysis:

These policy moves affect MSME financing, infrastructure growth, and fiscal allocation—core topics for business-environment sections of competitive exams.

Source: https://www.livemint.com/news/india/cabinet-decisions-today-11-nov-full-list-12-6-lakh-crore-mudra-loans-62-370-crore-subsidy-metro-boost-and-more-11794391951196.html

Milk shock! Amul raises prices 5.5% – consumers brace for higher dairy bills!

Image 1 (Real):

Original Image

Image 2 (Pexels):

Summary:

Amul will increase fresh pouch milk prices across major markets from 12 Nov, with Gold up ₹4 per litre and Taaza up ₹2 per litre, citing higher production and processing costs.

Detailed analysis:

Price hikes in essential commodities affect inflation metrics and household expenditure patterns, a frequent focus in economics papers of government exams.

Source: https://www.livemint.com/news/india/amul-announces-price-hike-after-mother-dairy-milk-to-get-costlier-by-5-5-from-12-november-check-new-rates-11794407330282.html

Jan Aushadhi revamp! Government transforms cheap-drug stores into modern health hubs!

Image 1 (Real):

Original Image

Image 2 (Pexels):

Summary:

The Centre plans to upgrade high-performing Jan Aushadhi Kendras into flagship outlets with expanded drug portfolios, redesigned layouts, and better credit facilities.

Detailed analysis:

Modernising public drug outlets enhances affordable healthcare access and impacts public-health budgeting—relevant for health-economics sections in exams.

Source: https://www.livemint.com/news/govtrun-pharmacies-gear-up-for-a-makeover-11794388974192.html

India Storms into SAFF Semis with Heroic Goal and Goalkeeper Saves!

Image 1 (Real):

Original Image

Image 2 (Pexels):

Summary:

Suhail Ahmad Bhat converted a first-half penalty, and goalkeeper Priyansh Dubey made crucial late saves as defending champions India beat Maldives 1-0.

Detailed analysis:

Highlights India's dominance in South Asian football, useful for questions on national sports achievements and the impact of football development programmes.

Source: https://www.hindustantimes.com/sports/football/suhail-ahmad-bhat-scores-priyansh-dubey-stars-as-india-reach-saff-championship-semifinals-101794418834274.html

World Hockey Body Warns: Hockey India on the Brink of Suspension!

Image 1 (Real):

Original Image

Image 2 (Pexels):

Summary:

In a letter to Hockey India, world hockey's governing body has warned against “outside interference”.

Detailed analysis:

Illustrates governance challenges in Indian sports bodies, a frequent topic in public administration and sports policy sections of exams.

Source: https://www.hindustantimes.com/sports/hockey/fih-threatens-to-suspend-hi-over-outside-interference-101794417764274.html

Bronze Victory Secures Olympic Spot for India's Sharpshooter Niraj!

Image 1 (Real):

Original Image

Image 2 (Pexels):

Summary:

The 26-year-old overcame windy conditions and quality competition to win the medal in Doha.

Detailed analysis:

Shows India's growing presence in Olympic shooting sports and the importance of quota places for India's medal prospects at the Games.

Source: https://www.hindustantimes.com/sports/others/world-shooting-championships-rifle-marksman-niraj-claims-bronze-olympics-quota-101794416490560.html

Sunil Chhetri Leads FIFA’s New Player Impact Initiative – First Male Indian!

Image 1 (Real):

Original Image

Image 2 (Pexels):

Summary:

Former India captain Sunil Chhetri has become the first male participant in FIFA’s Player Impact Programme.

Detailed analysis:

Reflects India's rising influence in global football governance and can be linked to questions on sports diplomacy and athlete welfare schemes.

Source: https://www.hindustantimes.com/sports/football/sunil-chhetri-becomes-first-male-participant-as-fifa-expands-player-impact-programme-101794402335552.html

India Hits 100 Grandmasters – The Chess Superpower Blueprint!

Image 1 (Real):

Original Image

Image 2 (Pexels):

Summary:

With the right nurturing, structured support and some extra push, India can become the undisputed powerhouse of world chess, writes AICF president Nitin Narang

Detailed analysis:

Emphasizes strategic sports development; useful for essay topics on nurturing talent, government support, and India's soft power through chess.

Source: https://www.hindustantimes.com/sports/others/indian-chess-a-hundred-grandmasters-and-hungry-for-more-101794411320018.html

Underdog Vaishali Shocks Giants Niemann & So in Blitz Upset!

Image 1 (Real):

Original Image

Image 2 (Pexels):

Summary:

The Indian GM is the lowest rated player in the tournament being played in Budapest

Detailed analysis:

Demonstrates the potential of Indian players on the international stage; relevant for questions on individual excellence and sport-specific training policies.

Clean Air, Boom Economy: India Can Have Both!

Image 1 (Real):

Original Image

Image 2 (Pexels):

Summary:

The best interventions must address air pollution while supporting development priorities. Cleaner industrial processes may reduce emissions while improving efficiency. Clean cooking can reduce household smoke while improving convenience and health. Better waste management can reduce open burning while improving urban services

Detailed analysis:

Highlights that environmental reforms can be synergistic with economic growth, a key point for UPSC environment and economics sections. Emphasises clean technology, cooking, and waste management as dual-benefit strategies.

Source: https://www.thehindu.com/sci-tech/energy-and-environment/indias-efforts-to-clean-its-air-need-not-slow-its-economic-growth/article71681547.ece

Workplace Woes: Your Back Might Hurt More Than Retirement!

Image 1 (Real):

Original Image

Image 2 (Pexels):

Summary:

A large new study has also found that people’s pain levels varied according to their income, geography, conditions like obesity, and habits like smoking

Detailed analysis:

Useful for health-policy questions: pain prevalence is linked to socio-economic factors, not just ageing. Indicates need for workplace ergonomics and lifestyle interventions in public health planning.

Source: https://www.thehindu.com/sci-tech/science/physical-pain-often-peaks-during-your-working-years-not-in-old-age/article71688310.ece

COP31: Leaders Show Up, Big Names Ghost the Summit!

Image 1 (Real):

Original Image

Image 2 (Pexels):

Summary:

COP31 host Turkiye is championing a voluntary initiative to accelerate the electrification of transport, buildings and industry, with a target of raising electricity's share of global energy consumption to 35% by 2035

Detailed analysis:

Relevant for climate-change and energy policy topics. Shows voluntary pathways, electrification targets, and diplomatic dynamics when major powers skip high-profile events—important for answering questions on international environmental negotiations.

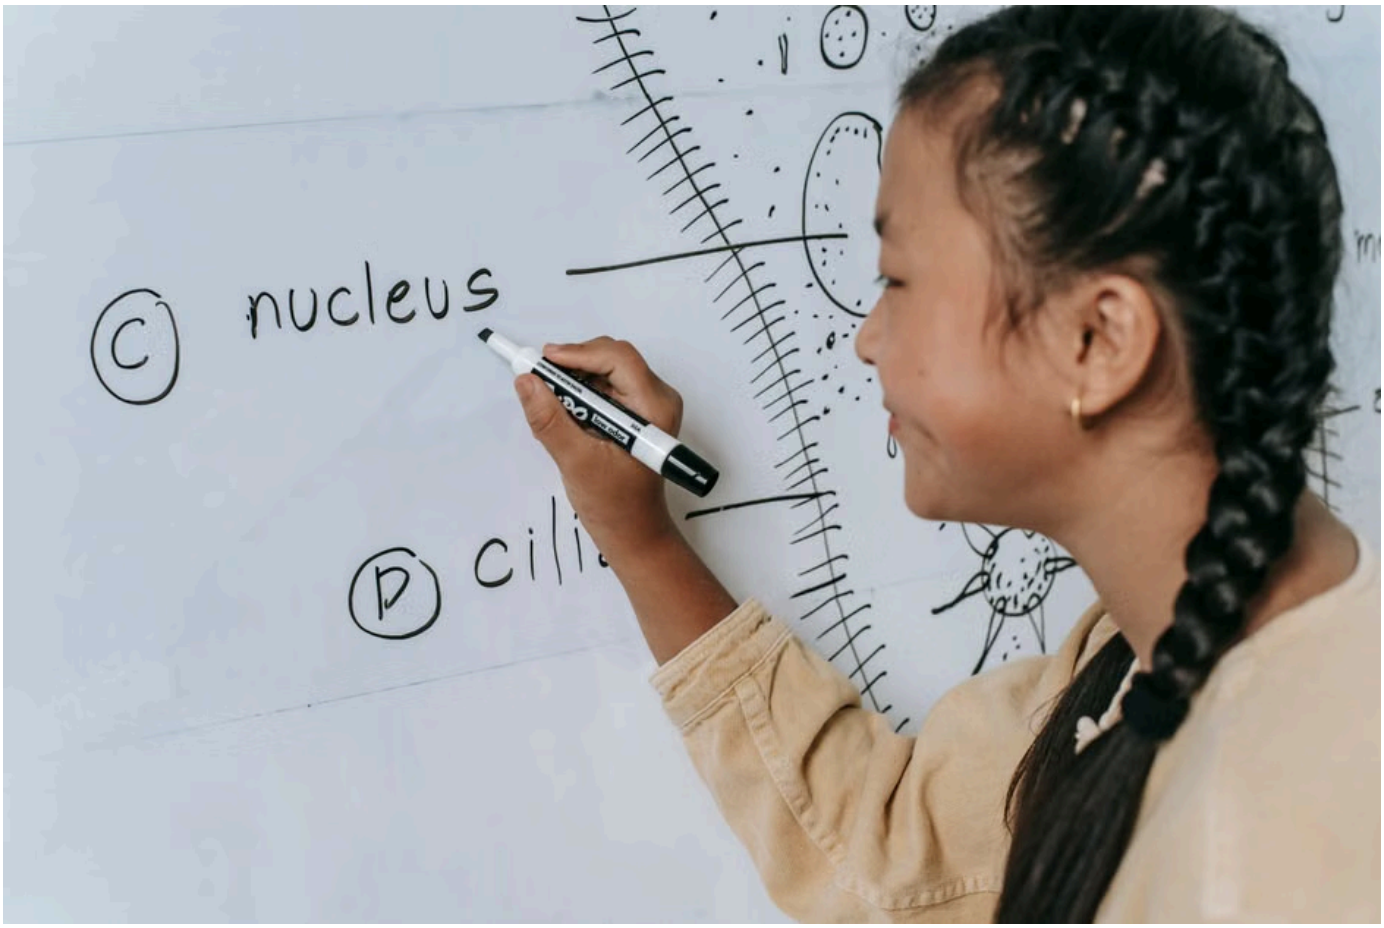
Source: https://www.thehindu.com/sci-tech/energy-and-environment/world-leaders-take-stage-at-cop31-but-big-names-missing/article71688148.ece

Quiz Time! Weird Science Awards You've Never Heard Of!

Image 1 (Real):

Original Image

Image 2 (Pexels):



Summary:

Test your knowledge on the unconventional science prizes

Detailed analysis:

While not a news story, it can be used for motivation: awareness of diverse scientific recognitions encourages broader study, useful for aspirants to explore lesser-known award categories in science culture questions.

Source: https://www.thehindu.com/sci-tech/science/science-quiz-unconventional-science-prizes/article71688121.ece

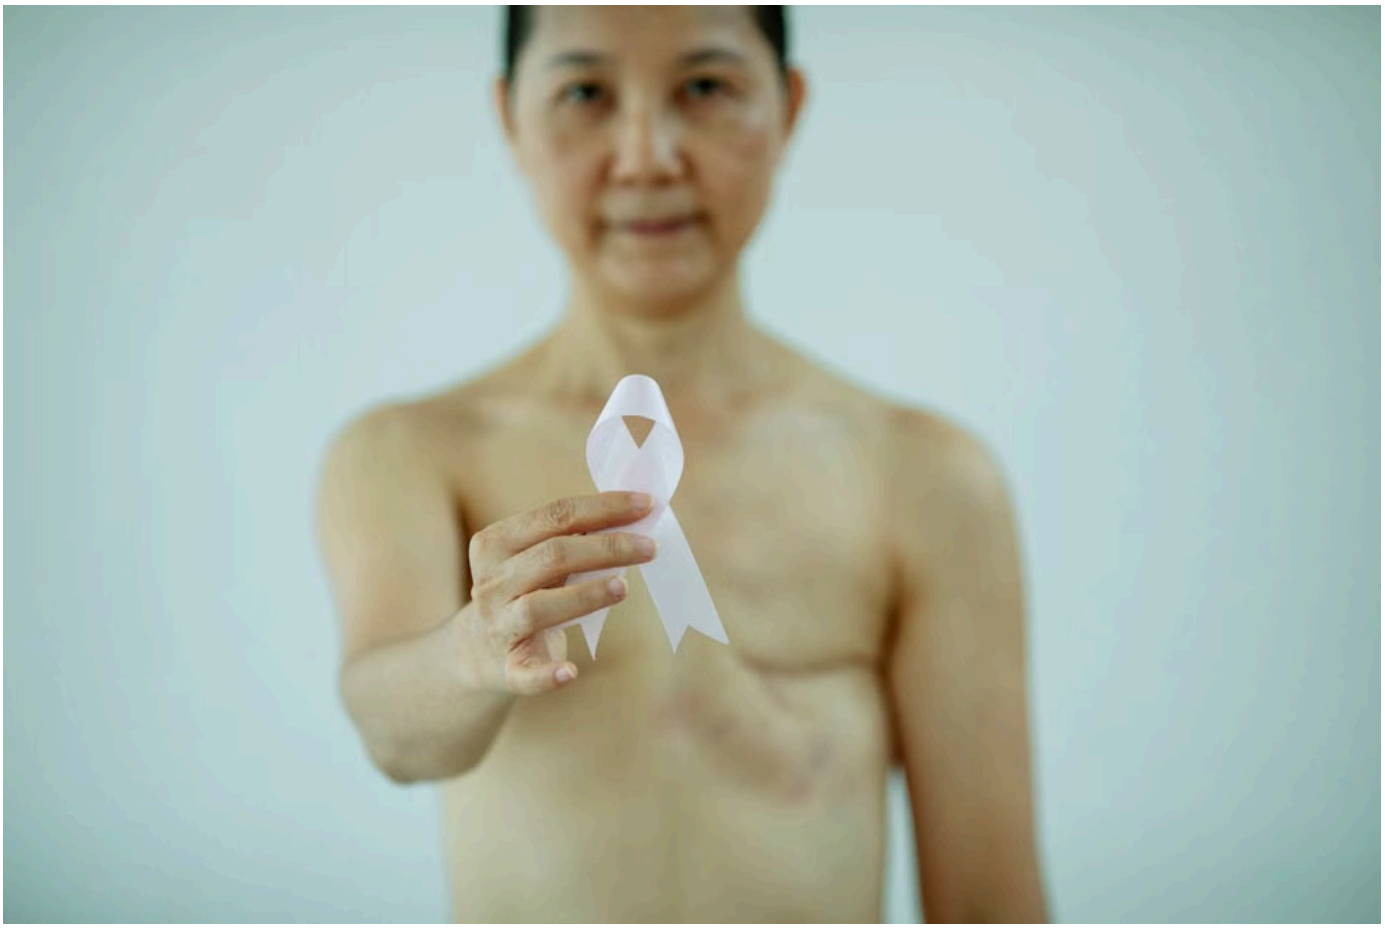
Revolutionary 50-Micron Scan Could Spot Breast Cancer Before It Even Starts!

Image 1 (Real):

Original Image

Image 2 (Pexels):



Summary:

The system uses a 50-micron detector to capture detailed images of breast tissue, helping radiologists examine tiny microcalcifications that may be associated with early breast abnormalities

Detailed analysis:

Highlights cutting-edge diagnostic tech that could improve early detection rates—useful for questions on healthcare infrastructure and technology adoption in India.

Source: https://www.thehindu.com/sci-tech/health/vs-hospitals-introduces-digital-mammography-system-for-breast-cancer-detection/article71689362.ece

India’s Bold Plan to Overhaul Allied Health Jobs – All Registrations May Soon Be Mandatory!

Image 1 (Real):

Original Image

Image 2 (Pexels):

Summary:

National Commission for Allied and Healthcare Professions invites public and stakeholder comments on the Draft Provisional Registration of Allied and Healthcare Professionals Regulations, 2026

Detailed analysis:

Policy-level reform affecting thousands of allied health workers; important for UPSC topics on health sector regulation and professional standards.

Source: https://www.thehindu.com/sci-tech/health/new-registration-framework-proposed-to-strengthen-allied-and-healthcare-professions-in-india/article71689527.ece

India’s Fight Against Anaemia Gets a 360° Makeover – No More ‘Pill-Popping’!

Image 1 (Real):

Original Image

Image 2 (Pexels):

Summary:

If anaemia reduction should align with India’s goals for NCD reduction, then the focus must be on better diets through diversification. That should be non-negotiable for public health policy: no amount of papering over cracks with pills and potions will work in the long term

Detailed analysis:

Emphasizes nutrition-centric interventions, a recurring theme in public health questions on malnutrition and NCD control.

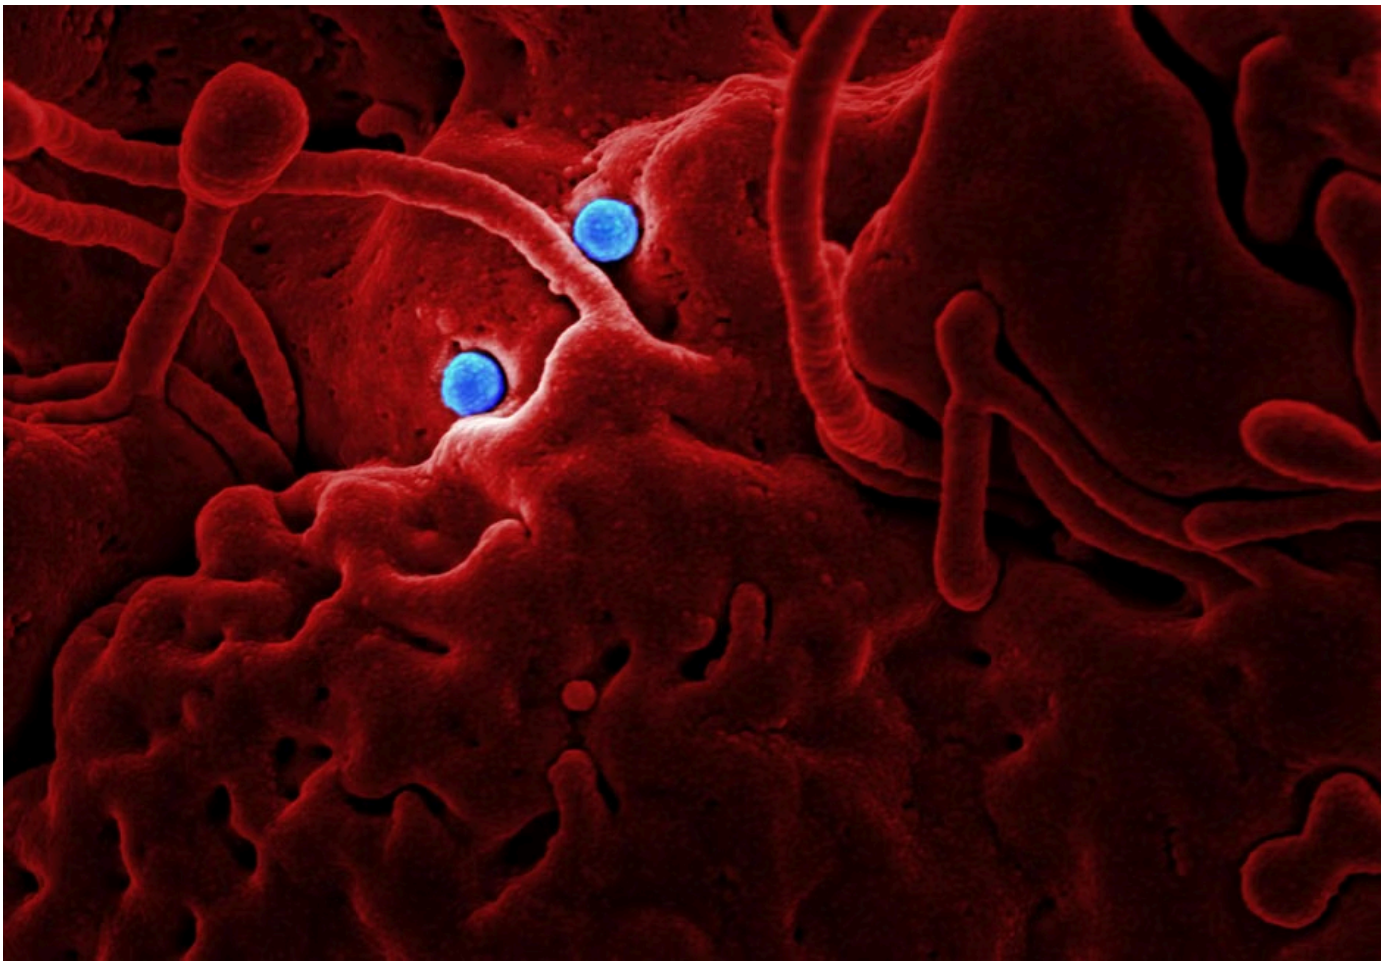
Source: https://www.thehindu.com/sci-tech/health/anaemia-prevention-in-india-pivoting-towards-better-multidimensional-strategies/article71669461.ece

Ebola Storm: Over 11,000 Deaths Loom as Congo’s Crisis Escalates!

Image 1 (Real):

Original Image

Image 2 (Pexels):



Summary:

Since the outbreak was declared mid-May, Congolese authorities have struggled to contain it due to a series of factors including conflicts and a health system crisis

Detailed analysis:

Global health emergency; useful for comparative analysis of epidemic response mechanisms and India's own preparedness plans.

Source: https://www.thehindu.com/news/international/congos-ebola-outbreak-tops-11000-cases-as-disease-keeps-spreading/article71688652.ece

Vaccination Nightmare: Gunmen Snatch 3 Polio Workers in Pakistan!

Image 1 (Real):

Original Image

Image 2 (Pexels):

Summary:

The gunmen took the three workers from Khyber Pakhtunkhwa’s Tank district to an undisclosed location after abducting them. The abducted workers were identified as Mir Janan, Ikram and Khanzala, says police

Detailed analysis:

Illustrates security challenges to immunisation drives; relevant for questions on cross-border health initiatives and safety of health workers.

Source: https://www.thehindu.com/news/international/three-polio-workers-abducted-during-vaccination-campaign-in-northwestern-pakistan/article71685191.ece

Delhi’s Air Quality Crisis: Sensors Fail as Pollution Hits Record Levels!

Image 1 (Real):

Original Image

Image 2 (Pexels):

Summary:

The pollution control board said PM levels were measured only up to 1,000 micrograms per cubic metre (µg/m³) for AQI calculations, which explained the missing data on Deepavali night, when actual concentrations exceeded this limit

Detailed analysis:

Focuses on air-quality monitoring limits; key for environmental health sections and disaster management queries in exams.

Source: https://www.thehindu.com/news/cities/Delhi/delhi-cpcb-mulls-raising-monitoring-cap-after-readings-go-blank/article71687253.ece

India to Axe Illegal Sand Mining in 3 Years – Rivers Get a Lifeline!

Image 1 (Real):

Original Image

Image 2 (Pexels):

Summary:

In its report, the CEC observes that while sand and gravel are crucial ingredients for infrastructure and construction, their unscientific or excessive extraction from active channels and floodplains disrupts the delicate dynamic balance of river systems.

Detailed analysis:

Exam-relevant because it links environmental sustainability with infrastructure development. Highlights government policy (CEC roadmap) aimed at preserving river ecosystems, a key topic for UPSC and state PSC questions on water resources, climate change, and sustainable development goals (SDGs).

Boom! Firecrackers Remain Delhi’s No.1 Pollution Villain Post-Deepavali!

Image 1 (Real):

Original Image

Image 2 (Pexels):

Summary:

The contribution of firecrackers to the city's pollution levels was significantly higher on November 9, a day after Deepavali, before declining on November 11, the IITM models showed.

Detailed analysis:

Important for exams covering air quality management, public health, and policy measures during festivals. Shows real-time data from IITM, useful for questions on pollution sources, mitigation strategies, and the role of scientific monitoring.

Himalayan Climate Fight Stalls at COP31 – Big Nations Pull the Plug!

Image 1 (Real):

Original Image

Image 2 (Pexels):

Summary:

Nepal's Minister of Foreign Affairs, said that the three countries would continue to face challenges in getting the issue formally recognised without the support of major countries.

Detailed analysis:

Relevant for geopolitics of climate negotiations, a frequent UPSC topic. Illustrates how regional concerns (glacier melt, biodiversity) can be sidelined by lack of consensus, underscoring the importance of diplomatic lobbying and coalition building.

Source: https://www.thehindu.com/sci-tech/energy-and-environment/himalayas-agenda-left-off-cop31-formal-list-as-major-blocs-withhold-support-nepal-foreign-minister/article71688621.ece

Clean Air, Fast Growth: India Shows Pollution Fight Won’t Stall Economy!

Image 1 (Real):

Original Image

Image 2 (Pexels):

Summary:

The best interventions must address air pollution while supporting development priorities. Cleaner industrial processes may reduce emissions while improving efficiency. Clean cooking can reduce household smoke while improving convenience and health. Better waste management can reduce open burning while improving urban services.

Detailed analysis:

Crucial for questions on sustainable development, balancing environmental health with economic objectives. Provides concrete examples (industrial upgrades, clean cooking, waste management) that align with the 'Green Growth' concept in the syllabus.

COP31’s Star-Studded Line-up: Some Global Heavyweights Skip the Stage!

Image 1 (Real):

Original Image

Image 2 (Pexels):

Summary:

COP31 host Turkiye is championing a voluntary initiative to accelerate the electrification of transport, buildings and industry, with a target of raising electricity’s share of global energy consumption to 35% by 2035.

Detailed analysis:

Highlights international climate policy dynamics and Turkey’s voluntary electrification drive—useful for exam topics on global climate governance, renewable energy targets, and the significance of leadership participation in UNFCCC conferences.
