

India Rockets to #4 Global Economy Spot, Eyes #3 by 2030!

Image 1 (Real):

 Original Image

Image 2 (Pexels):

Summary:

India has officially moved ahead of Japan to become the fourth-largest economy in the world with a GDP of USD 4.18 trillion and is projected to overtake Germany for the third spot by 2030.

Detailed analysis:

The leap to the 4th-largest economy underscores the impact of recent reforms, high growth rates (8.2% YoY Q2-2025/26) and rising foreign investment. Aspirants should note the policy drivers – GST rationalisation, fiscal consolidation, and the Make in India push – as these shape future UPSC questions on economic development and global standing.
