## *China-US Trade Truce: Tariffs Slashed, Soybeans Soar!*

### **Image 1 (Real):**

 Original Image

### **Image 2 (Pexels):**

### **Summary:**

America and China have agreed to ease their trade war. Presidents Trump and Xi Jinping met to lower tariffs on Chinese goods by ten percent. They also reached an agreement on rare earth supplies. China will buy American soybeans. A deal for TikTok's US operations is expected soon. This marks a new phase in their economic standoff.

### **Detailed analysis:**

Understanding the shift in Sino-US trade policy is crucial for exam takers as it influences India's export-import dynamics, commodity prices and geopolitical risk assessments. The tariff cut may lower input costs for Indian manufacturers dependent on Chinese components and boost US agricultural imports such as soybeans, affecting domestic agri-prices.

## *China's Service Sector Slows: Export Orders Freeze!*

### **Image 1 (Real):**

 Original Image

### **Image 2 (Pexels):**

### **Summary:**

China's services sector expanded in October, but at its slowest pace in three months, as declining overseas orders outweighed improved domestic demand. While new business grew, export orders contracted for the first time in four months due to global trade uncertainties. Employment also declined, and input costs rose, pressuring profit margins.

### **Detailed analysis:**

A slowdown in China's services affects global growth forecasts and trade flows, directly impacting India's export markets and foreign investment outlook. Candidates should note the link between overseas order weakness and potential ripple effects on Indian IT services and tourism revenues.
