The Cloud-Seeding Myth: Why Delhi's Rain-Making Dream Won't Cure Its Smog!

Image 1 (Real):

 Original Image

Image 2 (Pexels):

Summary:

Delhi's air remains dangerously polluted due to emissions from vehicles, industry, construction, power plants, waste burning, and agricultural fires; cloud seeding cannot create rain without clouds, provides only temporary relief at best, and diverts attention from evidence-based solutions that address the root causes

Detailed analysis:

Provides a balanced counter-point to the previous pro-cloud-seeding article. Useful for exam answers that require critical evaluation of tech-based interventions versus structural measures in air-quality management.
