Summary:

Indias states fiscal deficit has widened to 3.3 percent of GDP in fiscal year 2025. This increase stems from states borrowing more under a central government scheme for capital investment. Capital expenditure remains a focus, budgeted at 3.2 percent of GDP in fiscal year 2026.

Detailed analysis:

A rising sub-national deficit stresses the central government's borrowing capacity and may influence RBI's monetary stance. Important for UPSC/IAS aspirants tracking fiscal consolidation.
