*India Poised to Axe Two Major Agro-Chemicals – Farmers Brace for Shock!*

**Image 1 (Real):**

 Original Image

**Image 2 (Pexels):**

**Summary:**

The agrochemical industry makes a case for a scientific reassessment rather than an outright ban, warning that removing the two molecules could reduce farmers' choices and raise cultivation costs.

**Detailed analysis:**

A ban would tighten input costs for growers, potentially squeezing profit margins in cash-crop sectors and pushing up food prices. Aspirants should note the policy-driven risk to agribusiness stocks and the possible shift toward organic alternatives.

## Rupee Crashes to Historic Low – What's Driving the Currency's Plunge?

### Image 1 (Real):

 Original Image

### Image 2 (Pexels):

### Summary:

The Indian rupee hit a new all-time low on Wednesday, falling 0.1% to 95.7450 per dollar. This decline was driven by consistent overseas debt repayments and importer hedging, overshadowing any relief from increased duties on precious metal imports. The ongoing U.S.
